Petition to: *Sonoma County Board of Supervisors*

Regarding: *The Dutra Asphalt Plant*

We the undersigned citizens of Petaluma and Sonoma County respectfully request that plans for building the Dutra Asphalt Plant across from the Schollenberger Park be indefinitely abandoned. Schollenberger Park is an invaluable resource to our community: providing recreation on trails and in waterways found nowhere else in our community; access for school children and families to visit and learn about the river ecosystem and her inhabitants in a tangible, peaceful, and safe experience; and a home for species such as the Egret and Heron who nest their vulnerable young on the edges of the shore. As your constituents, we oppose the Dutra Asphalt Plant with the good intentions of an environment free of noise, emissions, and cumulative impacts to the Schollenberger Park and our families.
